

VCFD Repair

The Fleet Maintenance Division operates repair units to perform basic repairs or maintenance at fire stations, or in the field if needed. The repair truck carries a variety specialized tools, equipment and parts for the repair and maintenance of our firefighting apparatus. Fleet Maintenance is in the process of changing their vehicles to white in color.

During major incidents, mechanics will be a part of the incident base and perform these functions there. Fleet Maintenance also operates a fuel tender and other specialized units to service apparatus in the field and on major incidents.

Staffing: A fire mechanic staffs the repair.

Radio designation:

Repair + number.

i.e.: Repair 5.
