

## VENTURA COUNTY FIRE DEPARTMENT LIVE FUEL MOISTURE 2018 ALL FUEL BEDS - CHAMISE

### Fuels/Fire Discussion

It appears the fuels are finally taking in the moisture Mother Nature has provided. The vegetation has taken advantage of the rains we received early last month, the cooler temperatures, and longer nights with better humidity recoveries. Like a sponge, the vegetation will absorb all it can as fast as possible. With more warm dry conditions in the forecast we will have to see how the fuels respond.
