

Response Levels

Below are the initial response levels; the number and types of resources we dispatch depends on the report we receive and type of incidents. Variables can cause our response to be altered. As more information is developed about an incident, the numbers and types of resources can change along with incident type:

Types of incidents

Emergency Medical Service	Multi-Casualty	Traffic Collision-TC	TC Heavy Rescue	Structure Fire	Wildland Fire
Hazardous Materials	Technical Rescue	Aircraft Down	Boat Fire	Water Rescue	Swift Water Rescue

Types of resources dispatched per incident type (numbers in parenthesis indicate the number of multiple resources if greater than one)

Emergency Medical Service

Engine

Ambulance

Multi-Casualty Response (over 10 victims)

Division Chief

Battalion Chief (2)

Engine (5)

Truck (2)
