

DID YOU KNOW?

Smoke alarms should be tested monthly.

Replaceable batteries should be replaced annually.

Smoke alarms with life-long batteries will work for up to 10 years.

Closed doors slow the spread of smoke, heat and fire

Fatal fires often occur at night

SMOKE ALARMS SAVE LIVES

- Approximately **75%** of home fire deaths occur without working smoke alarms.
- Working smoke alarms provide an early warning and increase the chance of survival. You may have only **2 minutes** to safely escape a home fire.
- Install smoke alarms inside **every bedroom**, outside each **sleeping area** and on **every level of the home**.
