

History

Fire Station 22, Meiners Oaks

Fire Station 22 serves the Meiners Oaks portion of Ojai Valley. The station was built in 1954 and extensively remodeled in the mid 1980's to replace the space lost when two fire department houses were sold and removed from the site.

The houses were used in the early years for the station captain and the Battalion Chief and their families. Later, one of the houses became the quarters for the on-duty crew.
