Robby's Family Safety Activity Book
This is what a firefighter looks like in protective gear. Never fear firefighters in gear!
Firefighters want everyone to stay safe from fires. Here are some safety rules.

Stay away from fire. Do not touch or play with any of these things.

**Things that can BURN you**

- Matches
- Lighter
- Candle
- Fireplace
- Grill
- Iron
- Stove
Fire spreads fast. It can hurt people before they can get away.

Fire can destroy things. It can burn down houses and trees.
Turnout says to crawl low under smoke. It is easier to breathe and see near the floor.

Help this boy crawl out of his house under the smoke. Draw a line from him to the door.
Learn the sound a smoke detector makes. If you hear it, get outside!

Test your detectors. Have one on every floor.
Get out fast if there is a fire. Do not hide. Do not take anything with you.

Circle the child who is getting out safely. Put an “X” on the children not being safe.
Robby says:
If your clothes catch on fire...

STOP
what you are doing

DROP
to the ground

and

ROLL
while covering your face until the fire is out.

Color the words:
STOP (red), DROP (yellow) and Roll (green)
Robby’s Family Activity
Escape Plan

Every safe home has an escape plan.

Have at least two ways out of every room in the house.

Remember that windows can be used as a second way out in an emergency.

Have a meeting place.

Everyone in your family should know the plan.

Everyone in the family should practice the plan at least once a year.

Turnout the fire dog lives at his fire station. Help Turnout find two ways out of every room to his meeting place.

Draw your own family escape plan. Go over it with your family members and practice it at least once a year.
Once you are outside, stay out. Go to your family’s meeting place. Wait for help.

Does your family have a meeting place in case of fire? It should be somewhere outside, near your house like a mailbox or tree. Ask your parent or guardian where it is. Draw it here.
Exit Drills in the Home

1. Make an escape plan and talk about two ways out of every room.
2. Decide on a meeting place outside in the front of your home.
3. Once you’re outside, and not alone, send someone to call 911.
4. Practice your plan by having fire drills with your family.
5. Do NOT go back in the house for pets or toys.
6. Do NOT hide. Get outside as soon as you can.
7. If you are trapped in your room, close the door, stuff the cracks with something to keep the smoke out, open the window and call for help.
